

PRATT®

a MUELLER brand

LVC STEM COVER KNIFE GATE VALVES

FEATURES:

- Stem covers protect the stem from falling debris and are not necessarily dust tight. For dust tight covers, consult the factory.
- **NOTE:** The lower stem cover may reduce the opening stroke of the valve.

MUELLER

STEM EXTENSION COMPOSITE

FEATURES:

In order to properly design and price a stem extension assembly certain details must be provided by the customer. They are:

1. 'X' distance from centerline of valve to base of floor-stand or top of floor.
2. 'Y' distance from centerline of valve to base of stem guide, or wall.
3. Maximum differential pressure of valve requirements.

(A) Consult factory before using assemblies in detail 'C' & 'G.'

(B) Floor structure must withstand valve thrust in detail 'D.' Contact factory for valve thrust requirements.

Due to the many variables involved with stem extension design and pricing, it is recommended that you contact the factory to confirm selection. Please reference assembly preferred, dimension as required, valve type and maximum differential pressure of valve to be used.

N. = NON

R. = RISING

S. = STEM

A. = ADAPTER

Mueller refers to one or more of Mueller Water Products, Inc. a Delaware corporation ("MWP"), and its subsidiaries. MWP and each of its subsidiaries are legally separate and independent entities when providing products and services. MWP does not provide products or services to third parties.
